

# INITIAL D: GUTTER RUN — PAGE 2

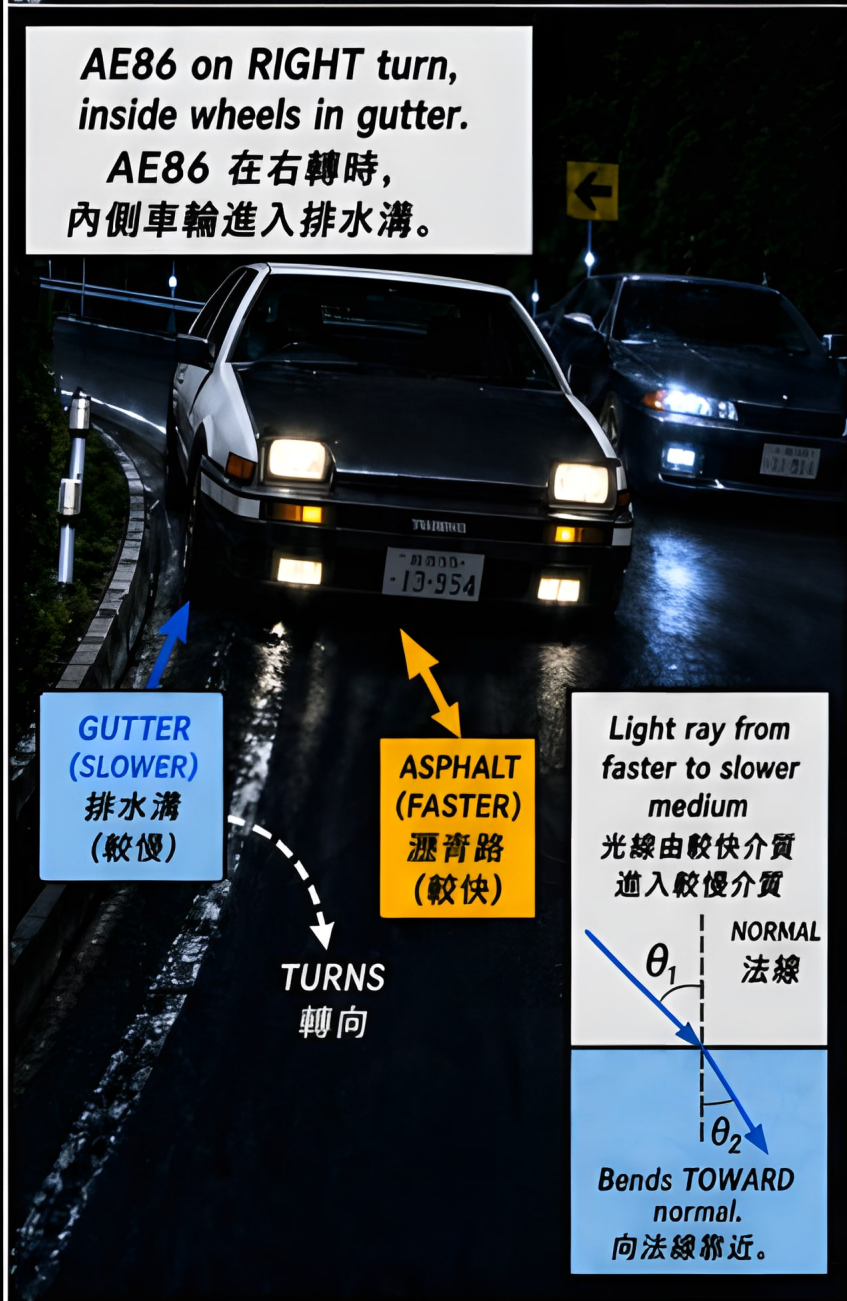

## 頭文字D：排水溝過彎 — 第2頁

GT-R stays on asphalt  
and runs WIDE on left-turn.  
GT-R 留在瀝青路面，  
左轉時走外線。

AE86 on RIGHT turn,  
inside wheels in gutter.  
AE86 在右轉時，  
內側車輪進入排水溝。

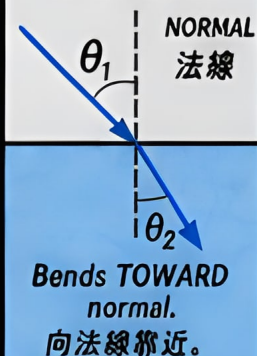

GUTTER  
(SLOWER)  
排水溝  
(較慢)

ASPHALT  
(FASTER)  
瀝青路  
(較快)

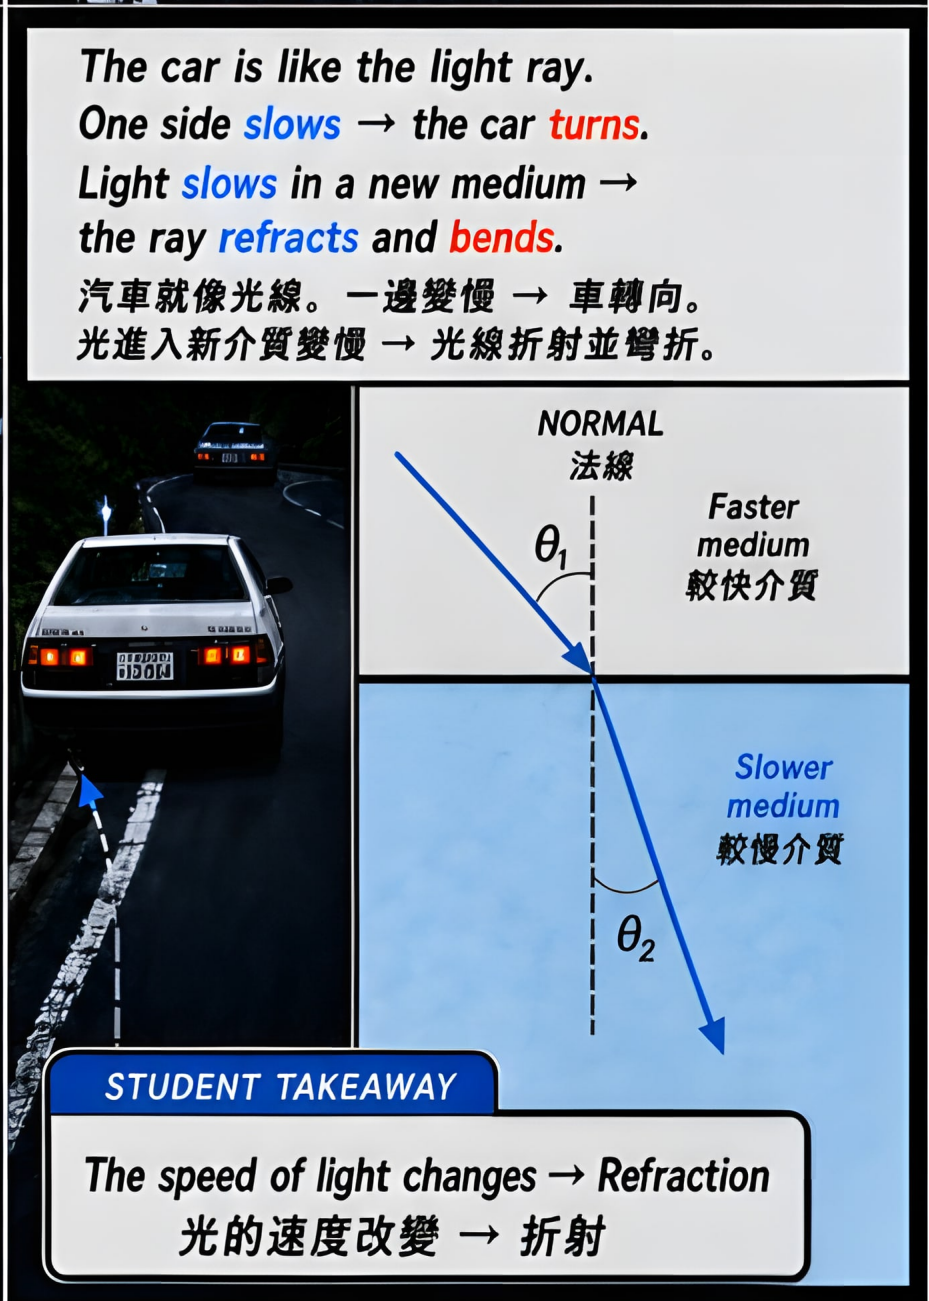

TURN  
轉向

Light ray from  
faster to slower  
medium  
光線由較快介質  
進入較慢介質

The car is like the light ray.  
One side slows → the car turns.  
Light slows in a new medium →  
the ray refracts and bends.

汽車就像光線。一邊變慢 → 車轉向。  
光進入新介質變慢 → 光線折射並彎折。

NORMAL  
法線

$\theta_1$

Faster  
medium  
較快介質

Slower  
medium  
較慢介質

$\theta_2$

STUDENT TAKEAWAY

The speed of light changes → Refraction  
光的速度改變 → 折射

**FINISH**

**1 AE86 TRUENO**

**2 NISSAN GT-R R34**

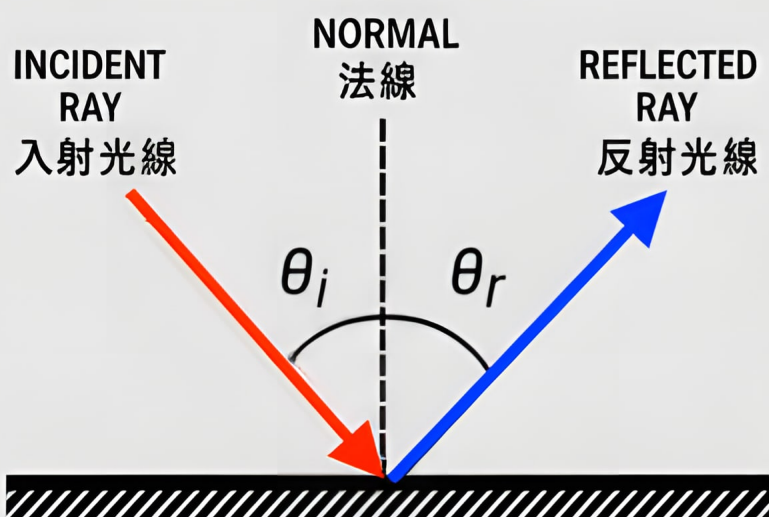

**AE86 WINS.**

**86 先係真正嘅秋名山車神！**

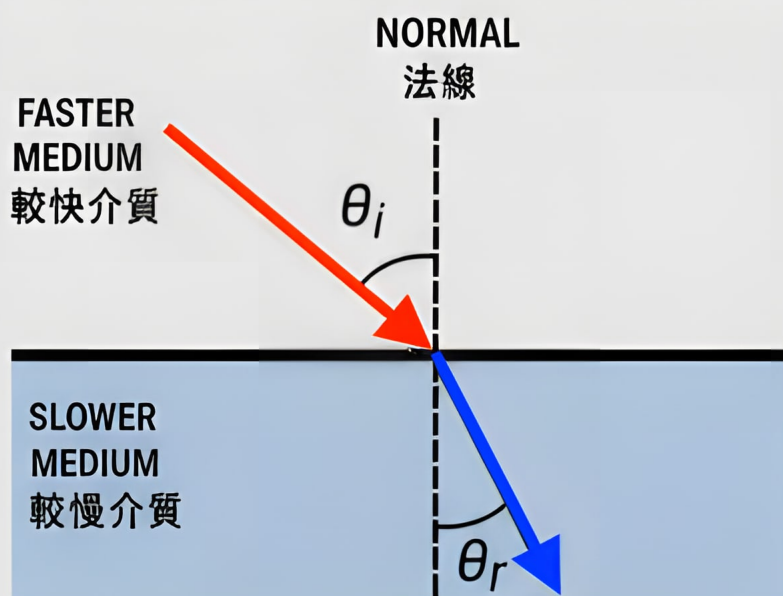

## REFLECTION 反射

SMOOTH SURFACE 光滑表面

**RULE:**  $\theta_i = \theta_r$

## REFRACTION 折射

**BENDS TOWARD  
THE NORMAL  
向法線折射**

The speed of light changes → Refraction  
光的速度改變 → 折射
